

Lesson – Coding Flags of the World

Learning Objectives:

1. Learners to widen their worldview of cultures and people from around the world
2. Learners to create a national flag using code in Make Art
3. Learners to deepen understanding about the geography and culture of a country

Lesson: Coding Flags of the World

Time 1 hr 15 min

Intro: Ask students about where they are from. What do they know about their country?

10 min

Put students in pairs and have the pairs choose one of the following countries from the board:

5 min

- *Beginner:* Ireland, Ukraine, Peru, Bangladesh, Indonesia, Nigeria, Sudan, Colombia, France, Mali
- *Intermediate:* Czech Republic, United Kingdom, Switzerland, Kuwait, Tanzania, Norway, Greenland, Jamaica, Scotland, The Gambia
- *Advanced:* South Africa, South Korea, Greece, Chile, Seychelles, Guyana, Macedonia, Puerto Rico, Namibia, Bosnia and Herzegovina

Main: Have students draw the flag of their respective country in Make Art. The students should also collect some facts about the country - population, currency, location, language. Teacher to offer support where needed.

35 min

Learners to present their chosen country and coded flag to class.

15 min

Learners to say 3 things they have learned this lesson about another country.

5 min

Kano cleanup
